

AABB/ISCT Working Group

CHAIR:

PURPOSE: In 2014, executive leadership at AABB and ISCT agreed to establish a joint working group (WG) for the purpose of identifying issues common to both organizations in the cellular therapy arena and exploring advocacy issues on which both organizations can collaborate.

- CHARGES:**
1. Identify projects of common interest in which the membership of both organizations can participate.
 2. Create charges and deliverables for collaborative projects.
 3. Identify and appoint candidates to serve on project team(s) per defined guidelines.
 4. Promote the distribution/publication of project deliverables.
 5. Provide accountability to project team(s) for progress on charges and deliverables.
 6. Sunset project teams as projects are completed.
 7. Secure respective Board approval for joint projects prior to full execution.
 8. Identify areas for joint advocacy efforts.
