

## Supporters of the NBF and the NBFRET Invest in the Future of the Field

**A**ABB and the National Blood Foundation are proud to present those who made a donation to the NBF and its Research and Education Trust Fund in 2018. Their generosity helped give seven deserving early-career researchers the means to conduct studies that may advance the field and lead them into a career in blood banking, cellular therapies or transfusion medicine. AABB and the NBF laud the giving spirit behind these donations with a special thanks to recurring donors who remain committed to our mission, those who donated to the NBF for the first time and those who made anonymous donations. Many previous grant recipients have leveraged their grant-funded research into a successful career, becoming industry experts and leaders whose scientific contributions continue to advance the field and improve patient treatment and safety. Thank you for supporting the NBF's mission to fuel innovative research for the benefit of donors and patients.
