

2024 AABB Annual Meeting Planners – Financial Relationship Disclosures

In keeping with the Accreditation Council for Continuing Medical Education (ACCME) standards for commercial support, AABB asks everyone who is in position to control the content of a continuing medical education activity to disclose all relevant financial relationships with ineligible companies. ACCME defines an ineligible company as any entity producing, marketing, re-selling or distributing health care goods used on or by patients. (Providers of clinical services directly to patients are not ineligible companies). A relevant financial relationship is in any amount occurring within the previous 24 months. Relevant financial relationships reported by faculty will be disclosed at the beginning of all continuing education sessions. Below are the relevant financial relationships reported by the AABB 2024 Annual Meeting Planners and AABB staff members involved in educational planning.

Reports not having a relevant financial relationship with any ineligible companies during the past 24 months.
