OCTOBER 25-28

ADVANCING BIOTHERAPIES TOGETHER

At the 2025 AABB Annual Meeting

AABB is pleased to announce the return of the Biotherapies Pavilion at the 2025 AABB Annual Meeting, taking place October 25-28, in San Diego, CA.

**BIOTHERAPIES
PAVILION**

About AABB

The Association for the Advancement of Blood & Biotherapies (AABB) is an international, not-for-profit organization representing individuals and institutions involved in the fields of transfusion medicine and biotherapies.

AABB membership includes physicians, nurses, scientists, researchers, administrators, medical technologists, and other health care providers. AABB members are located in more than 80 countries and AABB accredits institutions in more than 50 countries.

The Association works collaboratively to advance the field through the development and delivery of standards, accreditation and education programs. AABB is dedicated to its mission of improving lives by making transfusion medicine and biotherapies safe, available and effective worldwide.

Exhibiting at the AABB Annual Meeting

When: October 25-28, 2025

Where: San Diego Convention Center

The 2025 AABB Annual Meeting will bring together the latest research and practice-changing resources for professionals in the fields of blood and biotherapies. The meeting will provide unparalleled networking opportunities to build brand awareness by connecting you with more than 3,500 industry leaders and colleagues from around the world.

Join us at the AABB Biotherapies Pavilion

AABB introduced the inaugural biotherapies pavilion at the 2023 Annual Meeting as a specially designed networking space in the Exhibit Hall providing biotherapies companies with new and curated opportunities to network with key audiences in the field and gain access to all that the AABB Annual Meeting has to offer.

Biotherapies Pavilion Open-Mic Sessions and Events

Returning to the Biotherapies Pavilion this year are industry expert open-mic conversations – a highlight from the 2023 and 2024 meetings, where 45-minute sessions featured:

- Phase-Appropriate Business Development in Biotherapies with Becky Cap, Vitalant
- Simplifying Quality Audits with Tracey Hlucky, Kite Pharma
- Biomanufacturing with Rob Tressler, Excellos
- Certified Advanced Biotherapies Professional (CABP) panel with Jeff Wren, AABB
- Maintaining and Retaining a Qualified Cell Therapy Workforce with Ignacio Nunez, CellReady
- Utilization of Generative AI in Regulatory and Quality GXP Systems with Jyo Biswas, ThinkTrends
- Shaping How Cell Therapy Manufacturers Approach New Product Launches with Tracey Hlucky and Jeff Schacherl, Kite Pharma
- Emerging Challenges and Solutions in the CGT Supply Chain with Mark Sawicki, Cryoport Systems

Other events at the Biotherapies Pavilion have also included:

CABP Celebration Hour

Join AABB for an engaging discussion about the AABB Certified Advanced Biotherapies Professional (CABP) Credentialing Program. Hear from recent CABPs on how they prepared and discover the latest resources available for exam preparation.

***Getting Started in Processing for Biotherapies* book launch**

Book launch celebration of AABB's new publication, *Getting Started in Processing for Biotherapies* with Yossi Schwartz, MD, MPH, CABP, the book's editor.

AABB will be excited to announce the schedule for this year's sessions and events in September.

What an incredible experience speaking at the **AABB 2024 Annual Meeting** in Houston!

It was a privilege to present and share best practices on AI methodologies for measuring and assessing laboratory competency in Blood Banks and Cell Therapy Facilities. This isn't just about speeding up data extraction - it's about transforming manual, labor-intensive processes (that no one particularly enjoys). Our work focuses on converting complex, unstructured data (like PDFs and handwritten forms) into structured, analyzable formats, saving both time and costs. With ThinkTrends code-less AI solutions, laboratories can achieve greater accuracy, consistency, and data quality, leading to better decision-making across blood banking and cell therapy functions.

A huge thank you to Dr. **WANXING CUI**, **Jeff Wren**, and Daisy for your enthusiastic support and engagement. You made this session truly impactful! 🙌
