

Coding and Reimbursement Committee

CHAIR: Justin Halls

PURPOSE: To address transfusion medicine and cellular therapies reimbursement issues.

CHARGES: 1. Monitor reimbursement policies and develop recommendations to improve and protect reimbursement for blood and blood products and transfusion medicine services. As appropriate, assist in developing AABB positions, which will be considered by the Board.

2. Monitor reimbursement policies and develop recommendations to improve and protect reimbursement for cellular therapies and biotherapies. As appropriate, assist in developing AABB positions, which will be considered by the Board.

3. Identify educational needs for the membership related to reimbursement and coding. Assist in the development of needed educational programs/products.
